

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stanton Nelson
DOCKET NO.: 06-25447.001-R-1
PARCEL NO.: 18-05-309-047-0000

The parties of record before the Property Tax Appeal Board are Stanton Nelson, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,680
IMPR.: \$ 63,723
TOTAL: \$ 71,403

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 8,000 square foot parcel improved with a 51-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,909 square feet of living area and located in Lyons Township, Cook County. Features of the residence include three and one-half bathrooms, a full-unfinished basement, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the

appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of one-story or two-story, single-family dwellings of stucco or masonry construction located within several blocks of the subject. The improvements range in size from 2,103 to 5,277 square feet of living area and range in age from seven to 91 years. The comparables contain two, three and one-half or four and one-half bathrooms, a full-unfinished basement and a multi-car garage. Two comparables have central air-conditioning as well as two fireplaces. The improvement assessments range from \$15.25 to \$16.27 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$71,403. The subject's improvement assessment is \$63,723 or \$21.91 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,414 to 2,681 square feet of living area and range in age from 29 to 54 years. The comparables contain from two and one-half to four full bathrooms and a one-car or two-car garage. Two comparables have central air-conditioning, three comparables contain a partial or full-finished basement and three comparables have a fireplace. The improvement assessments range from \$22.25 to \$22.43 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities

within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, design and location and have improvement assessments ranging from \$22.25 to \$22.43 per square foot of living area. The subject's per square foot improvement assessment of \$21.91 falls below the range established by these properties. The Board finds the remaining comparables less similar to the subject in design, size, exterior construction and/or age and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
