

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Erik & Gwen Post
DOCKET NO.: 06-25505.001-R-1
PARCEL NO.: 05-18-217-016-0000

The parties of record before the Property Tax Appeal Board are Erik & Gwen Post, the appellants, by attorney Lisa A. Marino of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a seven-year-old, two-story, single-family dwelling of frame construction containing 2,860 square feet of living area and located in New Trier Township, Cook County. Features of the residence include three and one-half bathrooms, air-conditioning, two fireplaces, a full-unfinished basement and a two-car detached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the inequity claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of frame and masonry construction located within three blocks of the subject. One comparable is located on the same street and block as the subject. The improvements range in size from 2,703 to 2,972 square feet of living area and range in age from 33 to 54 years. The comparables contain two and one-half or three full bathrooms, a finished or unfinished basement, one or two fireplaces and a two-car garage. Three comparables have air-conditioning. The improvement assessments range from \$16.47 to \$21.06 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,172
IMPR.: \$ 71,500
TOTAL: \$ 88,672

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$88,672. The subject's improvement assessment is \$71,500 or \$25.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, seven-year-old, single-family dwellings of frame construction with the same neighborhood code as the subject. Two comparables are located on the same street and within one block of the subject. The improvements range in size from 2,921 to 3,161 square feet of living area. The comparables contain two and one-half or three and one-half bathrooms, a full-finished or unfinished basement, air-conditioning and a one-car or two-car garage. Two comparables have one or two fireplaces. The improvement assessments range from \$25.33 to \$38.11 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, exterior construction, location and age and have improvement assessments ranging from \$25.33 to \$38.11 per square foot of living area. The subject's per square foot improvement assessment of \$25.00 falls below the range established by these properties. The Board finds the appellants' comparables inferior to the subject in that they range in age from 33 to 54 years, whereas, the subject is only seven years old. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and no reduction is warranted.

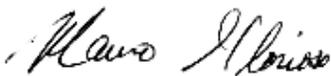

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
