

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Hebe Forgione  
DOCKET NO.: 06-25521.001-R-1  
PARCEL NO.: 05-33-100-061-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Hebe Forgione, the appellant, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review (board).

The subject property consists of a 51-year-old, one-story, single-family dwelling of masonry construction containing 1,874 square feet of living area and located in New Trier Township, Cook County. Features of the residence include two full bathrooms, a full-finished basement, air-conditioning, a fireplace and a one-car attached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one and one-half story, single-family dwellings of frame, masonry or frame and masonry construction located within four blocks of the subject. The improvements range in size from 1,847 to 2,205 square feet of living area and range in age from 80 to 124 years. The comparables contain one, one and one-half or two full bathrooms, a finished or unfinished basement and a two-car garage. Three comparables have a fireplace. The improvement assessments range from \$8.00 to \$16.75 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject and should be considered as such by the PTAB. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,302  
IMPR.: \$ 34,160  
TOTAL: \$ 51,462

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$51,462. The subject's improvement assessment is \$34,160 or \$18.23 per square foot of living area. In support of the assessment, the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The three suggested comparables are improved with one-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,850 to 2,150 square feet of living area and range in age from 83 to 93 years. The comparables contain one and one-half or two full bathrooms and a partial or full-unfinished basement. Two comparables have a fireplace and two comparables contain a one-car or two-car garage. The improvement assessments range from \$18.82 to \$24.22 per square foot of living area.

At hearing, the board's representative indicated that the board of review would rest on the written evidence submissions.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of seven properties similar to the subject in improvement size and location but with many variations in exterior construction and/or age. These seven properties have improvement assessments ranging from \$8.00 to \$24.22 per square foot of living area. The subject's per square foot improvement assessment of \$18.23 falls within the range established by these properties. The Board finds of the seven properties offered for comparison, three vary from the subject in exterior construction and all seven vary significantly in age. In addition, the seven suggested comparables are inferior overall to the subject in amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the PTAB finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
