

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Samir Yasin  
DOCKET NO.: 06-25532.001-R-1  
PARCEL NO.: 27-26-118-014-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Samir Yasin, the appellant(s), by attorney Melissa K. Whitley, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 4,435  
**IMPR.:** \$ 16,488  
**TOTAL:** \$ 20,923

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 7,920 square foot parcel improved with a 27-year-old, multi-level, single-family dwelling of frame construction containing 1,236 square feet of living area and located in Orland Township, Cook County. Features of the residence include one and one-half bathroom, a partial-finished basement, central air-conditioning and a two-car attached garage.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of multi-level, single-family dwellings of frame or frame and masonry construction located within eight blocks of the subject. The improvements range in size from 1,503 to 2,173 square feet of living area and range in age from 13 to 27 years old. The comparables contain one and one-half or two full bathrooms, central air-conditioning and a multi-car attached garage. Three

comparables have a partial or full-finished basement and two comparables have a fireplace. The improvement assessments range from \$10.65 to \$11.07 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparable three is its most similar property overall to the subject. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$20,923. The subject's improvement assessment is \$16,488 or \$13.34 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with 27-year-old, multi-level, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 1,177 to 1,214 square feet of living area. The comparables contain one and one-half bathroom, a partial-finished basement and a two-car attached garage. Two comparables contain central air-conditioning. The improvement assessments range from \$14.53 to \$14.81 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The PTAB finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, exterior construction and location and have improvement assessments ranging from \$14.53 to \$14.81 per square foot of living area. The subject's per square foot improvement assessment of \$13.34 falls below the range established by these properties. The PTAB finds the appellant's comparables less similar to the subject in improvement size and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement

assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the PTAB finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
