

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

7APPELLANT: Dave Pavic
DOCKET NO.: 06-25552.001-R-1
PARCEL NO.: 19-19-203-048-0000

The parties of record before the Property Tax Appeal Board are Dave Pavic, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,128
IMPR.: \$ 47,751
TOTAL: \$ 53,879

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 5,040 square feet of living area. The building is 41 years old, and its features include six apartment units and a slab foundation.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one and one-half or two-story frame or frame and masonry multi-family dwellings that range in age from 46 to 88 years old. The appellant's comparables all have the same neighborhood code as the subject, and one is located on the same tax block as the subject. The comparable dwellings range in size from 46 to 88 square feet of living area. One comparable has central air conditioning and a full, finished basement with an apartment, and three comparables have slab foundations. Each comparable has a garage. The comparables have improvement assessments ranging from \$6.33 to \$8.51 per square foot of living area. The subject's improvement assessment is \$9.47 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry multi-family dwellings that range in age from 29 to 52 years old. The comparables all have the same neighborhood code as the subject. The dwellings range in size from 3,972 to 4,058 square feet of living area. One comparable has central air conditioning and a full, finished basement with an apartment; one has a full, finished basement; and one has a full, unfinished basement. Each comparable has a garage. These properties have improvement assessments ranging from \$9.44 to \$11.00 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables numbered one and four were significantly older than the subject, and comparable numbered one also differed in style, size, foundation, and exterior construction. As a result, these comparables received reduced weight in the Board's analysis. The Board finds the appellant's comparables numbered two and three were very similar to the subject in all respects except exterior construction. The Board further finds the three comparables submitted by the board of review, despite differences in foundation, were very similar to the subject in style and exterior construction and were generally similar in size and age. Due to their similarities to the subject, these five comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$7.98 to \$11.00 per square foot of living area. The subject's improvement assessment of \$9.47 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
