

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gregory Jackson
DOCKET NO.: 06-25584.001-R-1
PARCEL NO.: 20-20-119-038-0000

The parties of record before the Property Tax Appeal Board are Gregory Jackson, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 3,500
IMPR.: \$ 11,081
TOTAL: \$ 14,581**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of stucco construction containing 1,094 square feet of living area. The dwelling is 34 years old, and it has a partial, unfinished basement.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame or masonry dwellings that range in age from four to sixty-two years old. The appellant's comparables all have the same neighborhood code as the subject. The comparable dwellings range in size from 1,444 to 1,606 square feet of living area. One comparable has a full, unfinished basement, and two have slab foundations. Two properties have two-car garages. The comparables have improvement assessments ranging from \$8.87 to \$9.57 per square foot of living area. The subject's improvement assessment is \$10.13 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of two-story masonry or frame and masonry dwellings that range in age from 34 to 60 years old. The comparables all have the same neighborhood code as the subject, and one is located on the same block as the subject. The dwellings range in size from 1,152 to 1,267 square feet of living area. One comparable has a full, unfinished basement, and three have slab foundations. Two comparables have two-car garages. These properties have improvement assessments ranging from \$10.69 to \$11.42 per square foot of living area. As part of its evidence, the board of review indicated that the comparable numbered two sold for \$150,000 in April 2005. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the seven equity comparables submitted by both parties differed from the subject in exterior construction. The appellant's comparables also differed in age and size and received reduced weight in the Board's analysis. The comparables numbered one and four by the board of review also differed in age and likewise received reduced weight. The Board finds the comparables numbered two and three by the board of review, despite differences in exterior construction, were the most similar to the subject in size and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$11.03 and \$11.42 per square foot of living area. The subject's improvement assessment of \$10.13 per square foot of living area falls below these amounts. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
