

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pat Gunnell
DOCKET NO.: 06-25594.001-R-1
PARCEL NO.: 19-19-212-036-0000

The parties of record before the Property Tax Appeal Board are Pat Gunnell, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 4,628
IMPR.: \$ 39,494
TOTAL: \$ 44,122**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2,176 square feet of living area. The dwelling is three years old, and its features include a partial, unfinished basement, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that are either three or seven years old. The appellant's comparables are all located in the same block as the subject. Each dwelling contains 2,176 square feet of living area, and each has a partial, unfinished basement, central air conditioning, and a fireplace. One comparable has a two-car garage. The comparables have improvement assessments ranging from \$16.02 to \$16.13 per square foot of living area. The subject's improvement assessment is \$18.15 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of two-story masonry or frame and masonry dwellings that are either one or three years old. The comparables all have the same neighborhood code as the subject, and one is located in the same block as the subject. The dwellings range in size from 2,176 to 2,452 square feet of living area. Three comparables have full, finished basements, and one has a partial, unfinished basement. Each has a two-car garage and central air conditioning, and two have a fireplace. These properties have improvement assessments ranging from \$12.87 to \$18.15 per square foot of living area. As part of its evidence, the board of review indicated that the subject sold for \$299,500 in December 2003, comparable numbered one sold for \$305,500 in November 2003; comparable numbered two sold for \$585,000 in May 2006; comparable numbered three sold for \$569,000 in May 2006; and comparable numbered four sold for \$471,500 in April 2006. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of seven equity comparables. The comparables numbered two through four by the board of review were somewhat larger than the subject and received reduced weight in the Board's analysis. The Board finds the comparables numbered one by the board of review and the comparables submitted by the appellant were identical to the subject in size, and they were all located in the same block as the subject. They were also very similar in age, style, and foundation. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$16.02 to \$18.15 per square foot of living area. The subject's improvement assessment of \$18.15 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
