

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Andreas Antoniou
DOCKET NO.: 06-25602.001-R-1
PARCEL NO.: 18-07-116-030-0000

The parties of record before the Property Tax Appeal Board are Andreas Antoniou, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 22,040
IMPR.: \$ 106,297
TOTAL: \$ 128,337

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 21-year-old, two-story style single-family dwelling of masonry construction. Containing 5,577 square feet of living area, the subject features three and one-half baths, a full finished basement, central air conditioning, a fireplace and a three and one-half car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties two of which are located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of masonry or stucco construction ranging from seven to forty-nine years old. The comparables range in size from 4,083 to 5,752 square feet of living area with amenities such as three or four

full baths, half baths, central air conditioning, fireplaces and multi-car garages; two all have full basements. The comparables have improvement assessments ranging from \$13.74 to \$16.93 per square foot of living area. A copy of the subject's 2006 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$106,297, or \$19.05 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of masonry construction ranging from eleven to seventy-eight years old. These properties range in size from 5,739 to 8,056 square feet of living area and have amenities such as from three to five full baths, half baths, full or partial basements, central air conditioning, multiple fireplaces and three car garages. The comparables have improvement assessments ranging from \$21.38 to \$27.82 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that one comparable is substantially inferior in size while one is substantially superior in size; one has inferior amenities and one has superior amenities; one is inferior in construction type; and five are superior in age and two are inferior in age when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the evidence does not support a reduction of the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject

dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
