

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Fletcher Hayes
DOCKET NO.: 06-25740.001-R-1
PARCEL NO.: 14-07-224-032-0000

The parties of record before the Property Tax Appeal Board are Fletcher Hayes, the appellant(s), by attorney Stephanie Park, of Stephanie Park, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,938
IMPR.: \$ 41,097
TOTAL: \$ 57,035

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,940 square foot parcel improved with a 108-year-old, two-story, single-family dwelling of frame and masonry construction containing 1,488 square feet of living area and located in Lake View Township, Cook County. Features of the residence include one full bathroom, a full-unfinished basement and a one and one-half car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. Based on the appellant's documents, the eight suggested comparables consist of two-story, single-family dwellings of frame, stucco, masonry or frame and masonry construction located within the subject's neighborhood. The

improvements range in size from 1,408 to 1,590 square feet of living area and range in age from 69 to 108 years. The comparables contain from one and one-half to three full bathrooms and a full-finished or unfinished basement. Three comparables have air-conditioning, two comparables contain a fireplace and six comparables have a two-car detached garage. The improvement assessments range from \$21.04 to \$25.76 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$57,035. The subject's improvement assessment is \$41,097 or \$27.62 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of stucco construction with the same neighborhood code as the subject. The improvements range in size from 1,408 to 1,621 square feet of living area and range in age from 92 to 98 years. The comparables contain one and one-half or two full bathrooms and a full-finished or unfinished basement. One comparable has central air-conditioning, one comparable has a fireplace and three comparables contain a two-car detached garage. The improvement assessments range from \$27.82 to \$28.67 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of twelve equity comparables. The Board finds these twelve properties similar to the subject in improvement size, age, design and location and they have improvement assessments ranging from \$21.04 to \$28.67 per square foot of living area. The subject's per square foot improvement assessment of \$27.62 falls within the range established by these properties. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

Docket No: 06-25740.001-R-1
