

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Edmond Tchilian
DOCKET NO.: 06-25844.001-R-1
PARCEL NO.: 13-21-313-001-0000

The parties of record before the Property Tax Appeal Board are Edmond Tchilian, the appellant, and the Cook County Board of Review.

The subject property consists of an eight-year-old, two-story, multi-family dwelling of masonry construction containing 4,099 square feet of living area with three full bathrooms, a full-finished basement apartment and a three-car detached garage. The subject is situated on a 3,712 square foot lot and located in Jefferson Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the subject as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of two-story, multi-family dwellings of masonry construction located within close proximity to the subject. Two comparables are located on the same street as the subject. The improvements range in size from 2,256 to 3,675 square feet of living area and range in age from 51 to 85 years. The comparables contain three full bathrooms, a full-finished basement as well as a two-car detached garage. The improvement assessments range from \$7.87 to \$11.60 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,275
IMPR.: \$ 55,766
TOTAL: \$ 63,041

Subject only to the State multiplier as applicable.

PTAB/rfd5898

The appellant also requested a reduction in the subject's land assessment, however, failed to provide an analysis in support of this claim.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$63,041. The subject's improvement assessment is \$55,766 or \$13.60 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 13 or 19-year-old, single-family dwellings of masonry construction located within close proximity to the subject. The improvements contain 3,517 and 3,841 square feet of living area. The comparables contain similar amenities as compared to the subject. The improvement assessments are \$13.60 and \$13.80 per square foot of living area, respectively. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

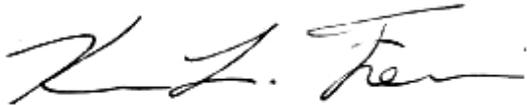

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. They are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$13.60 to \$13.80 per square foot of living area. The subject's per square foot improvement assessment of \$13.60 falls within the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size. In addition, the appellant's comparables range in age from 51 to 85 years, whereas, the subject is only eight years old. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. The appellant failed to provide an analysis supporting a reduction in the subject's land assessment. As a result, the Board also sustains the land assessment assigned to the subject property.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
