

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Moes
DOCKET NO.: 06-25857.001-R-1
PARCEL NO.: 14-19-430-005-0000

The parties of record before the Property Tax Appeal Board are David Moes, the appellant(s), by attorney Stephanie Park, of Stephanie Park, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,474
IMPR.: \$ 117,276
TOTAL: \$ 129,750

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,125 square foot parcel improved with a four-year-old, three-story, single-family dwelling of masonry construction containing 2,884 square feet of living area and located in Lake View Township, Cook County. Features of the residence include four and one-half bathrooms, a full-finished basement, central air-conditioning, two fireplaces and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. Based on the appellant's documents, the eight suggested comparables consist of two-story or three-story, single-family dwellings of frame, masonry or frame and

masonry construction located within the subject's neighborhood. The improvements range in size from 2,772 to 2,920 square feet of living area and range in age from two to ten years. The comparables contain two and one-half, three and one-half or four and one-half bathrooms, a finished or unfinished basement, central air-conditioning and a multi-car garage. Six comparables contain from one to four fireplaces. The improvement assessments range from \$28.37 to \$33.59 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$129,750. The subject's improvement assessment is \$117,276 or \$40.66 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,290 to 3,536 square feet of living area and range in age from one to four years. The comparables contain three and one-half bathrooms, a full-finished or unfinished basement, central air-conditioning and from one to three fireplaces. Two comparables have a three-car detached garage. The improvement assessments range from \$47.27 to \$56.70 per square foot of living area. The board's evidence disclosed that the subject sold in December 2003 for a price of \$1,297,500. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables two and three and the board of review's comparable three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$32.92 to \$47.27 per square foot of living area. The subject's per square foot improvement assessment of \$40.66 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement

size, age and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
