

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Beyer
DOCKET NO.: 06-25915.001-R-1
PARCEL NO.: 05-18-308-045-0000

The parties of record before the Property Tax Appeal Board are Gary Beyer, the appellant, by attorney Arnold G. Siegel in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 47,987
IMPR.: \$ 201,950
TOTAL: \$ 249,937**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 6,240 square feet of living area. The dwelling is one year old. Features of the home include a full, finished basement, central air conditioning, three fireplaces, and a four-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on seven comparable properties described as two-story stucco, masonry, or frame and masonry dwellings that range in age from four to seventy-seven years old. Four of the appellant's comparables are located on the same block as the subject, and the other three are located three to five blocks away. The comparable dwellings range in size from 5,335 to 6,632 square feet of living area. Two comparables have full, finished basements, and five have unfinished basements, either full or partial. Each comparable has central air conditioning, one to three fireplaces, and a one, two, or three-car-garage. The comparables have improvement assessments ranging from \$16.87 to \$30.67 per square foot of living area. The subject's improvement assessment is \$32.36 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that are either one or four years old. The comparables all have the same neighborhood code as the subject. The dwellings range in size from 5,517 to 6,541 square feet of living area. Three comparables have full, finished basements, and one has a full, unfinished basement. Each comparable has central air conditioning, two or three fireplaces, and a three and one-half car garage. These properties have improvement assessments ranging from \$13.90 to \$40.31 per square foot of living area. The comparable assessed at \$13.90 per square foot has an improvement assessment that reflects new construction. As part of its evidence, the board of review disclosed that the subject sold in June 2004 for \$1,050,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eleven equity comparables. The appellant's comparables numbered four through seven were much older than the subject and received reduced weight in the Board's analysis. The comparable numbered two by the board of review has a partial assessment for new construction and also received reduced weight. The Board finds the comparables numbered three by the board of review was most similar to the subject in size and age, and it was also very similar in other respects as well. The appellant's comparables numbered one through three and the comparables numbered one and four by the board of review were very similar to the subject in age and were generally similar to the subject in size. Due to their similarities to the subject, these seven comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$27.20 to \$40.31 per square foot of living area. The subject's improvement assessment of \$32.36 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the

Docket No: 06-25915.001-R-1

Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
