

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Woody Slaymaker
DOCKET NO.: 06-26058.001-R-1
PARCEL NO.: 14-20-427-005-0000

The parties of record before the Property Tax Appeal Board are Woody Slaymaker, the appellant, by attorney Stephanie Park of Chicago, and the Cook County Board of Review.

The subject property consists of an 84-year-old, three-story, mixed-use building of masonry construction containing 9,750 square feet of building area and located in Lake View Township, Cook County. Features of the building include eight and one-half bathrooms and a partial-unfinished basement.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on ten properties suggested as comparable to the subject. Based on the appellant's documents, the ten suggested comparables consist of two-story or three-story, mixed-use buildings of masonry construction located within the subject's neighborhood. Four of the comparables are located on the same street and within five blocks of the subject. The improvements range in size from 8,400 to 10,173 square feet of building area and range in age from 72 to 111 years. The comparables contain from three to six and one-half bathrooms. Eight comparables have a partial-unfinished basement, five comparables contain air-conditioning and two comparables have a multi-car detached garage. The improvement assessments range from \$4.29 to \$11.24 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 43,392
IMPR.: \$ 109,608
TOTAL: \$ 153,000

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$171,058. The subject's improvement assessment is \$127,666 or \$13.09 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, mixed-use buildings of masonry or frame and masonry construction with the same neighborhood code as the subject. One of the comparables is located on the same street and within two blocks of the subject. The improvements range in size from 4,005 to 10,104 square feet of building area and range in age from one to 93 years. The comparables contain from three to eight full bathrooms. Three comparables contain a finished or unfinished basement and three comparables have air-conditioning. The improvement assessments range from \$13.11 to \$19.91 per square foot of building area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

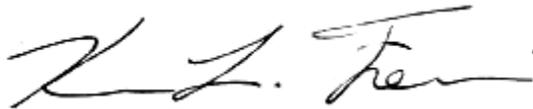

The Board finds the appellant's comparables four, five, seven and ten to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age, and exterior construction. In addition, they are located on the same street and within five blocks of the subject and have improvement assessments ranging from \$8.51 to \$11.24 per square foot of building area. The subject's per square foot improvement assessment of \$13.09 falls above the range established by these properties. The Board finds the board of review's comparables two, three and four differ significantly from the subject in either age or improvement size. The board's comparable one is accorded less weight because it enjoys above average condition, whereas, the subject is in average condition. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
