

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Gary Weber
DOCKET NO.: 06-26068.001-R-1
PARCEL NO.: 14-28-314-003-0000

The parties of record before the Property Tax Appeal Board are Gary Weber, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a 133-year-old, two-story, deluxe condition, single-family dwelling of masonry construction containing 3,487 square feet of living area and located in Lake View Township, Cook County. Features of the residence include a full-finished basement, air-conditioning, three and one-half bathrooms and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry or frame construction located within the subject's neighborhood. The improvements range in size from 3,220 to 3,678 square feet of living area and range in age from 108 to 115 years. The comparables contain two, three or three and one-half bathrooms and a full-finished or unfinished basement. Three comparables have from one to three fireplaces and one comparable contains air-conditioning. The improvement assessments range from \$31.85 to \$32.45 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$187,179. The subject's improvement assessment is \$139,375 or \$39.97 per

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 47,804
IMPR.: \$ 139,375
TOTAL: \$ 187,179

square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. Two of the comparables are in average condition and one comparable enjoys deluxe condition. The improvements range in size from 3,436 to 3,987 square feet of living area and range in age from 113 to 124 years. The comparables contain from three and one-half to five and one-half bathrooms, a full-finished or unfinished basement and a two-car or three-car garage. Two comparables have air-conditioning and two comparables contain multiple fireplaces. The improvement assessments range from \$41.94 to \$55.82 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

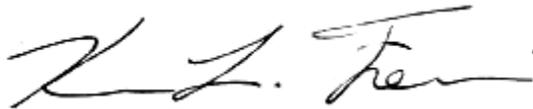

The Board finds the appellant's comparables one, two and four and the board of review's comparables to be similar to the subject. They are similar to the subject in improvement size, exterior construction, age and location and have improvement assessments ranging from \$31.85 to \$55.82 per square foot of living area. The subject's per square foot improvement assessment of \$39.97 falls within the range established by these properties. The board's comparable two is the only similar property to the subject in condition and has an improvement assessment of \$41.94 per square foot of living area. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
