

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tracy Doar
DOCKET NO.: 06-26089.001-R-1
PARCEL NO.: 04-09-203-025-0000

The parties of record before the Property Tax Appeal Board are Tracy Doar, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,862
IMPR.: \$ 45,638
TOTAL: \$ 53,500

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,184 square feet of living area. The dwelling is 53 years old, and its features include a full, unfinished basement, a fireplace, and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or frame and masonry dwellings that are either 53 or 65 years old. The appellant's comparables all have the same neighborhood code as the subject. The comparable dwellings range in size from 1,912 to 2,692 square feet of living area. Each comparable has a finished basement, either partial or full, central air conditioning, and one or two fireplaces. Two comparables have a garage. The comparables have improvement assessments ranging from \$10.35 to \$17.67 per square foot of living area. The subject's improvement assessment is \$20.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of two-story masonry or frame and masonry dwellings that range in age from 48 to 58 years old. The comparables all have the same neighborhood code as the subject. The dwellings range in size from 2,069 to 2,187 square feet of living area. Each comparable has an unfinished basement, either full or partial, a fireplace, and a garage. Three dwellings have central air conditioning. These properties have improvement assessments ranging from \$21.14 to \$22.02 per square foot of living area. As part of its evidence, the board of review disclosed that the subject sold for \$535,000 in November 2003 and the comparable numbered two sold for \$616,000 in May 2004. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed from the subject in exterior construction and received reduced weight in the Board's analysis. The comparable numbered four by the board of review also differed in exterior construction and likewise received reduced weight. The Board finds the comparables numbered one through three by the board of review were most similar to the subject in exterior construction. They were also very similar in age, size, style, foundation, and location. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$21.14 to \$21.79 per square foot of living area. The subject's improvement assessment of \$20.90 per square foot of living area falls below the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
