

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Castelli
DOCKET NO.: 06-26289.001-R-1
PARCEL NO.: 14-19-317-032-0000

The parties of record before the Property Tax Appeal Board are James Castelli, the appellant, by attorney Edward Larkin, of Larkin & Larkin of Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,241
IMPR.: \$ 60,620
TOTAL: \$ 72,861

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one and one-half story dwelling of frame construction containing 1,632 square feet of living area. The dwelling is 108 years old. Features of the home include a full, unfinished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties located on the same tax block or adjacent tax block as the subject and described as one or one and one-half story frame dwellings that are 108 years old. The comparable dwellings range in size from 1,530 to 1,750 square feet of living area. Each of the comparables has a full, unfinished basement, two have central air conditioning, one has a fireplace and two have a garage. The comparables have improvement assessments ranging from \$33.01 to \$33.95 per square foot of living area. The subject's improvement assessment is \$37.14 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment

information on four comparable properties consisting of one and one-half story frame dwellings that are between 109 and 113 years old. The dwellings range in size from 1,408 to 1,501 square feet of living area. Each of the comparables has a partial or full basement, one of which is finished, two have central air conditioning, two have one or two fireplaces and each has a two-car garage. These properties have improvement assessments ranging from \$37.14 to \$37.49 per square foot of living area. The comparables are located within one-quarter mile from the subject. Each has the same neighborhood code as the subject. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant noted differences between the subject and the comparables submitted by the board of review with respect to location.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparable two differed from the subject in design and received reduced weight. The remaining comparables submitted by the parties were similar to the subject in design, exterior construction, age and size. The comparables have the same neighborhood code as the subject and are within one-quarter mile of the subject. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments ranging from \$33.01 to \$37.49 per square foot. The subject's improvement assessment of \$37.14 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
