

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Homaro Cantu & Kathleen McGowan  
DOCKET NO.: 06-26332.001-R-1  
PARCEL NO.: 13-22-210-008-0000

The parties of record before the Property Tax Appeal Board are Homaro Cantu & Kathleen McGowan, the appellants, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 93-year old, one and one-half story style dwelling of frame construction containing 1,202 square feet of living area with a full, unfinished basement, and a one-car detached garage. The appellants indicated on their petition that the subject has a stucco exterior.

The appellants' appeal is based on unequal treatment in the assessment process. The appellants submitted information on three comparable properties described as one and one-half story stucco dwellings that range in age from 88 to 98 years old. The comparable dwellings range in size from 1,380 to 1,437 square feet of living area. These properties have improvement assessments ranging from \$28.63 to \$30.13 per square foot of living area. The subject's improvement assessment is \$32.74 per square foot of living area. According to the appellants, the subject has a stucco exterior. The only evidence provided by the appellants to support this claim was a small photograph of the subject dwelling. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one and one-half story frame dwellings that range in age from 96 to 108 years old. The dwellings range in size from 1,008 to 1,100 square feet of living area. These properties have improvement assessments ranging from \$32.90 to \$35.43 per square foot of living area. According to the board of review, the subject property has frame exterior construction. In support of this, the board of review produced the subject's property

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	9,777
IMPR.:	\$	39,348
TOTAL:	\$	49,125

Subject only to the State multiplier as applicable.

characteristic sheet. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds that a reduction in the subject's assessment is not warranted.

The appellants contend unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellants have not met this burden.

In support of their claim that the subject has stucco exterior, the appellants submitted a small photograph of the subject property. The quality of the photograph is poor, and it cannot be used to prove that the subject property has stucco exterior. The board of review produced the subject's property characteristic sheet which confirms that the subject has frame exterior construction. The Board finds that the board of review provided the best evidence with respect to establishing the subject's exterior construction.

The Board further finds that the comparables submitted by the board of review were the most similar to the subject in exterior construction, and they were also very similar in age, size, and design. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$32.90 to \$35.43 per square foot of living area. The subject's improvement assessment of \$32.74 per square foot of living area falls below this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
