

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel J. Haberkorn  
DOCKET NO.: 06-26358.001-R-1  
PARCEL NO.: 24-10-206-005-0000

The parties of record before the Property Tax Appeal Board are Daniel J. Haberkorn, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 6,320  
**IMPR.:** \$ 19,259  
**TOTAL:** \$ 25,579

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of an 8,778 square foot parcel improved with a 37-year-old, multi-level, single-family dwelling of frame and masonry construction containing 1,746 square feet of living area and located in Worth Township, Cook County. Features of the residence include one and one-half bathroom, a partial-finished basement and a one and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the

appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of one-story, single-family dwellings of masonry or frame and masonry construction located within several blocks of the subject. The improvements range in size from 2,412 to 2,751 square feet of living area and range in age from 37 to 55 years. The comparables contain two and one-half or three full bathrooms, central air-conditioning and a two-car attached garage. Two comparables contain a partial-unfinished basement as well as a fireplace. The improvement assessments range from \$6.06 to \$8.21 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$25,579. The subject's improvement assessment is \$19,259 or \$11.03 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,584 to 1,895 square feet of living area and range in age from 37 to 44 years. The comparables contain one and one-half, two and one-half or three full bathrooms, a partial-finished basement and a two-car attached garage. Three comparables contain central air-conditioning. The improvement assessments range from \$10.96 to \$12.53 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the

assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$10.96 to \$12.53 per square foot of living area. The subject's improvement assessment of \$11.03 per square foot of living area is within this range. The appellant's comparables are accorded less weight because they differ from the subject in improvement size, design and/or age. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
