

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barbara Heidegger
DOCKET NO.: 06-26656.001-C-1
PARCEL NO.: 19-14-330-025-0000

The parties of record before the Property Tax Appeal Board are Barbara Heidegger, the appellant(s), by attorney Brian P. Liston, of Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,270
IMPR.: \$20,140
TOTAL: \$26,410

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,000 square foot parcel of land improved with an 85-year old, one-story, commercial, storefront building containing 990 square feet of building area. The appellant, via counsel, argued that the fair market value of the subject was not accurately reflected in its assessed value.

In support of the market value argument, the appellant submitted sales information and limited descriptions on a total of three properties suggested as comparable to the subject. The data in its entirety reflects that the properties are improved with one-story, commercial, storefront buildings. The properties range in age from 45 to 52 years and in size from 2,200 to 3,100 square feet of building area. The properties sold from May 2002 to October 2002 for prices ranging from \$105,000 to \$145,000 or from \$46.77 to \$48.54 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's assessment of \$26,410 was disclosed. The subject's final assessment reflects a fair market value of \$69,500 or \$70.20 per square foot of building area when the Cook County Ordinance level of assessment for Class 5a property of 38% is applied. The board also submitted copies of the property characteristic printouts for the subject as well as raw sales data on four properties. These properties are described as one-story, commercial, storefront buildings. The properties range in size from 1,056 to 1,300 square feet of building area. The sales occurred from January 2001 to April 2002 for prices ranging from \$105,000 to \$180,000 or from \$95.45 to \$163.64 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued the appellant's evidence establishes the subject's overvaluation. The board of review rested on the evidence previously submitted.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331 Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB concludes that the evidence indicates a reduction is not warranted.

The parties presented sales data on a total of seven comparables. The PTAB finds all the comparables similar to the subject, but with dated sales. The properties are improved with one-story, commercial, storefront buildings. They range in size from 1,056 to 3,100 square feet of building area. The sales occurred from January 2001 to October 2002 for prices ranging from \$105,000 to \$180,000 or from \$46.77 to \$163.64 per square foot of building area. In comparison, the subject's assessment reflects a market value of \$70.20 per square foot of building area which is within the range of comparables.

After considering adjustments and the differences in the comparables when compared to the subject, the PTAB finds the subject's per square foot assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
