

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lawrence Bonnano  
DOCKET NO.: 06-26710.001-R-1  
PARCEL NO.: 14-19-119-038-0000

The parties of record before the Property Tax Appeal Board are Lawrence Bonnano, the appellant, by attorney Timothy C. Jacobs, of Gary H. Smith PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 12,725  
**IMPR.:** \$ 51,546  
**TOTAL:** \$ 64,271

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 2,644 square feet of living area. The dwelling is 93 years old. Features of the home include a full, unfinished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument, the appellant submitted information on seven comparable properties with the same classification code as the subject. The number of stories for each comparable was not disclosed. The comparables were multi-family dwellings of frame, masonry or frame and masonry construction that were between 85 and 100 years old. The comparable dwellings range in size from 2,592 to 3,064 square feet of living area. Six of the comparables have full or partial basements, three of which are finished, one has central air conditioning and six have a garage. The comparables have improvement assessments ranging from \$17.38 to \$18.30 per square foot of living area. The subject's improvement assessment is \$19.50 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry multi-family dwellings that are between 92 and 96 years old. The dwellings range in size from 2,268 to 2,676 square feet of living area. The comparables have full or partial basements, two of which are finished, and a garage. These properties have improvement assessments ranging from \$19.30 to \$21.75 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables two, three, six and seven were somewhat larger than the subject. Comparable four differed from the subject in foundation. Comparables, three, four and five differed from the subject in exterior construction. The board of review's comparable two was somewhat smaller than the subject. Thus, these comparables received reduced weight in the Board's analysis. The appellant's comparable one and the board of review's comparables, one, three and four were similar to the subject in size, exterior construction and foundation. They were also similar to the subject in age. The comparables had improvement assessments ranging from \$18.28 to \$20.47 per square foot of living area. The subject's improvement assessment of \$19.50 per square foot of living area is within the range established by the comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
