

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeanne Hawekotte
DOCKET NO.: 06-26713.001-R-1
PARCEL NO.: 13-29-301-015-0000

The parties of record before the Property Tax Appeal Board are Jeanne Hawekotte, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. of Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,049
IMPR.: \$ 34,937
TOTAL: \$ 40,986

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of masonry construction containing 4,359 square feet of living area. The dwelling is 76 years old. Features of the home include a partial, unfinished basement, central air conditioning and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process and overvaluation as the bases of the appeal. In support of the equity argument, the appellant submitted information on eight comparable properties described as two or three-story frame or masonry dwellings that range in age from 36 to 118 years old. The comparable dwellings range in size from 4,809 to 6,480 square feet of living area. Five of the comparables have a basement, two of which are finished and four have a garage. The comparables have improvement assessments ranging from \$7.90 to \$9.25 per square foot of living area. The subject's improvement assessment is \$10.05 per square foot of living area.

In support of the overvaluation argument, the appellant submitted an appraisal report in which a market value of \$405,000 was estimated for the subject as of March 3, 2004. The cost and

sales comparison approaches were utilized in the report. As a result, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$49,853 was disclosed. The subject's assessment reflects a market value of \$492,619 using the 2006 three year median level of assessments for class 2 property of 10.12%. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing four suggested comparable properties. The comparable properties consist of three-story masonry dwellings that are 59 or 77 years old. They have full basements, two of which are finished, and three have a garage. They range in size from 3,303 to 4,460 square feet and have improvement assessments ranging from \$10.02 to \$11.79 per square foot. The board of review's evidence indicated that comparable one sold for \$580,000 in May, 2006. The board of review also submitted a list of sales prices and sales dates for 20 properties. However, descriptions of these properties were not submitted. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant claimed the subject property's assessment was not reflective of its true market value. When market value is the basis of the appeal, the value must be proved by a preponderance of the evidence. Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179, 183, 728 N.E.2d 1256 (2d Dist. 2000). The Board finds that based on the evidence contained in the record the appellant has sufficiently established overvaluation by a preponderance of the evidence and a reduction in the subject's total assessment is warranted.

The Board finds the appraisal report submitted by the appellant in which a market value of \$405,000 was estimated for the subject on May 3, 2004 is the best evidence of the subject's market value as of the January 1, 2006 assessment date. The subject's assessment reflects a market value of \$492,619 and is in excess of the market value estimate contained in the recent appraisal report. The board of review submitted no evidence to refute the findings contained in the appraisal report. Thus, the Board finds the subject has a market value of \$405,000 and the 2006 three-year median level of assessments for Cook County Real Property Assessment Classification Ordinance Class 2 property of 10.12% as determined by the Illinois Department of Revenue shall apply. (86 Ill.Admin.Code 1910.50(c)(2))

The appellant also argued the subject property was inequitably assessed. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review

v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. The Property Tax Appeal Board finds that after considering the assessment reduction based upon market value principals, the subject property is uniformly assessed and no further reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
