

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Soens  
DOCKET NO.: 06-26856.001-R-1  
PARCEL NO.: 16-06-105-013-0000

The parties of record before the Property Tax Appeal Board are Richard Soens, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 11,593  
**IMPR.:** \$ 27,718  
**TOTAL:** \$ 39,311

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 9,661 square foot parcel improved with an 83-year-old, one-story, single-family dwelling of frame and masonry construction containing 910 square feet of living area and located in Jefferson Township, Cook County. Features of the residence include two bathrooms, a full-unfinished basement and a one-car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of one-story or one and one-half story, single-family dwellings of frame, masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 885 to 984 square feet of living

area and range in age from 46 to 94 years old. The comparables contain one full bathroom. Two comparables have a full-unfinished basement and four comparables have a one-car detached garage. The improvement assessments range from \$23.59 to \$26.99 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in location, design, construction, age and amenities. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$39,311. The subject's improvement assessment is \$27,718 or \$30.46 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 900 to 927 square feet of living area and range in age from 48 to 72 years old. The comparables contain one or one and one-half bathrooms, a full-finished basement and a two-car detached garage. Two comparables have central air-conditioning. The improvement assessments range from \$30.62 to \$33.14 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Property Tax Appeal Board finds the appellant's comparable four and the board of review's comparables one and two to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, design and location and have improvement assessments ranging from \$25.97 to \$33.14 per square foot of living area. The subject's per square foot improvement assessment of \$30.46 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in age and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the

subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
