

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Adamick
DOCKET NO.: 06-26892.001-R-1
PARCEL NO.: 13-16-230-014-0000

The parties of record before the Property Tax Appeal Board are Kevin Adamick, the appellant(s), by attorney Stephanie Park, of Stephanie Park, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,911
IMPR.: \$ 23,888
TOTAL: \$ 31,799

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,596 square foot parcel improved with a 92-year-old, one and one-half story, single-family dwelling of frame construction containing 1,320 square feet of living area and located in Jefferson Township, Cook County. Features of the residence include one full bathroom, a full-unfinished basement, central air-conditioning and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. Based on the appellant's documents, the eight suggested comparables consist of one-story or one and one-half story, single-family dwellings of frame or masonry

construction located within the subject's neighborhood. Two comparables are located on the same street and block as the subject. The improvements range in size from 1,274 to 1,458 square feet of living area and range in age from 80 to 93 years. The comparables contain one full bathroom. Four comparables have a partial or full-unfinished basement and seven comparables contain a one-car or two-car detached garage. The improvement assessments range from \$13.83 to \$17.10 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$31,799. The subject's improvement assessment is \$23,888 or \$18.10 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, single-family dwellings of frame construction with the same neighborhood code as the subject. Two comparables are located on the same street and block as the subject. The improvements range in size from 1,188 to 1,254 square feet of living area and range in age from 92 to 93 years. The comparables contain one full bathroom, a full-unfinished basement and a two-car detached garage. Two comparables have central air-conditioning. The improvement assessments range from \$18.92 to \$19.68 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables six and seven and the board of review's comparables one and two to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and exterior construction. In addition, they are located on the same street and block as the subject and have improvement assessments ranging from \$17.00 to \$19.68 per square foot of living area. The subject's per square foot improvement assessment of \$18.10 falls within the range established by these properties. The Board finds the remaining comparables less

similar to the subject in location and/or amenities and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
