

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Georgia Plevritis  
DOCKET NO.: 06-27433.001-R-1  
PARCEL NO.: 13-07-107-081-0000

The parties of record before the Property Tax Appeal Board are Georgia Plevritis, the appellant, by attorney Donald L. Schramm, of Rieff Schramm & Kanter in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 8,500  
**IMPR.:** \$ 44,219  
**TOTAL:** \$ 52,719

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 3,896 square feet of living area. The dwelling is 49 years old. Features of the home include a full, finished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted a grid analysis detailing four comparable properties described as two or three-story masonry dwellings that are between 39 and 41 years old. The comparable dwellings range in size from 3,791 to 5,816 square feet of living area. Three of the comparables have a full or partial basement, one of which is finished and two have a two-car garage. The comparables have improvement assessments ranging from \$13.42 to \$16.81 per square foot of living area. The subject's improvement assessment is \$18.64 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story

masonry dwellings that range in age from 23 to 49 years old. The dwellings range in size from 3,830 to 4,401 square feet of living area. The comparables have a full basement, two of which are finished, and three have a garage. These properties have improvement assessments ranging from \$7.25 to \$11.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The Board finds the appellant's comparables one and two were substantially larger than the subject. Comparable three differed from the subject in foundation. The board of review's comparable two was also substantially larger than the subject. Comparables three and four were substantially newer than the subject. As a result, these comparables received reduced weight in the Board's analysis. The appellant's comparable four and the board of review's comparable one were similar to the subject in age, size and foundation. They were also similar to the subject in exterior construction and design. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$11.20 and \$11.50 per square foot of living area. The subject's improvement assessment of \$11.67 per square foot of living area is above the assessments established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
