

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Harvey Teichman
DOCKET NO.: 06-27491.001-R-1
PARCEL NO.: 07-08-211-004-0000

The parties of record before the Property Tax Appeal Board are Harvey Teichman, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,020
IMPR.: \$ 23,862
TOTAL: \$ 30,882

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of frame and masonry construction containing 2,464 square feet of living area. The dwelling is 23 years old. Features of the home include a full, unfinished basement, a fireplace, and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame dwellings that range in age from 33 to 36 years old. According to the appellant, one of the comparables is located near the subject, and the other three are located over one mile away. The comparable dwellings range in size from 2,208 to 3,146 square feet of living area. Each comparable has a slab foundation. Three dwellings have central air conditioning and a garage, either one-car or two-car. The comparables have improvement assessments ranging from \$8.02 to \$8.67 per square foot of living area. The subject's improvement assessment is \$9.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame or frame and masonry dwellings that range in age from 10 to 28 years old. Based on their parcel index numbers and their street addresses, the comparables are located in close proximity of the subject property. The dwellings range in size from 2,475 to 3,788 square feet of living area. Each comparable has a full, unfinished basement, central air conditioning, one or two fireplaces, and a two-car garage. These properties have improvement assessments ranging from \$10.31 to \$11.63 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed from the subject in exterior construction, foundation, and age, and comparable one was also much larger than the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The comparables numbered three and four by board of review were much newer than the subject and also differed in exterior construction. The comparable numbered two by the board of review was similar to the subject in all respects except size. The board of review's comparables numbered two through four also received reduced weight in the Board's analysis. The Board finds the comparable numbered one by the board of review was most similar to the subject in age, size, style, exterior construction, features, and location. Due to its similarities to the subject, this comparable received the most weight in the Board's analysis. It had an improvement assessment of \$11.08 per square foot of living area. The subject's improvement assessment of \$9.68 per square foot of living area is supported by this assessment. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
