

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Joanna Sokolowski
DOCKET NO.: 06-27740.001-R-1
PARCEL NO.: 13-36-226-023-0000

The parties of record before the Property Tax Appeal Board are Joanna Sokolowski, the appellant, by attorney Gregory J. Lafakis with the law firm of Verros, Lafakis & Berkshire, P.C. in Chicago, and the Cook County Board of Review.

The subject property consists of a 108-year-old, three-story, mixed-use building of masonry construction containing 5,310 square feet of building area and located in West Chicago Township, Cook County. Features of the building include two and one-half bathrooms, a partial-unfinished basement and a one and one-half car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. However, the appellant's evidence disclosed that the appellant's comparable one is prorated with one or more tax parcels, therefore, this property will not be used in this analysis. Based on the appellant's documents, the three remaining suggested comparables consist of three-story, mixed-use buildings of masonry construction located within .61 miles of the subject. Two comparables are located on the same street as the subject. The improvements range in size from 5,904 to 9,750 square feet of building area and range in age from 108 to 113 years. The comparables contain from two and one-half to six full bathrooms and a partial-unfinished basement. One comparable has a two-car detached garage. The improvement assessments range from \$0.85 to \$8.00 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,976
IMPR.: \$ 44,557
TOTAL: \$ 54,533

Subject only to the State multiplier as applicable.

PTAB/rfd5976

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$54,533. The subject's improvement assessment is \$44,557 or \$8.39 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, mixed-use buildings of masonry construction with the same neighborhood code as the subject. Two comparables are located on the same street as the subject. The improvements range in size from 5,085 to 5,904 square feet of building area and range in age from 97 to 113 years. The comparables contain two, two and one-half or three full bathrooms and a partial-unfinished basement. One comparable contains a one and one-half car detached garage. The improvement assessments range from \$0.85 to \$8.53 per square foot of building area. The appellant's comparable three and the board of review's comparable three are the same property. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables one, two and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$8.43 to \$8.53 per square foot of living area. The subject's per square foot improvement assessment of \$8.39 falls below the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
