

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry Price  
DOCKET NO.: 06-27768.001-R-1  
PARCEL NO.: 14-29-312-039-0000

The parties of record before the Property Tax Appeal Board are Larry Price, the appellant(s), by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 18,566  
IMPR.: \$ 39,112  
TOTAL: \$ 57,678**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a three-story mixed-use and multi-family building of frame and masonry construction containing 3,140 square feet of living area. The building is 114 years old and has three apartment units and one commercial unit. Other features include a partial, unfinished basement and central air conditioning. The subject has a classification code of 2-12 under the Cook County Real Property Assessment Classified Ordinance, Mixed commercial/residential building, 6 units or less, square feet less than 20,000.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two or three-story frame or masonry mixed-use and multi-family buildings. The appellant's comparables all have the same classification and neighborhood codes as the subject. The comparable buildings range in age from 88 to 117 years old, and they range in size from 2,210 to 6,252 square feet of living area. Each comparable has two or three apartment units, one commercial unit, and a partial, unfinished basement. One comparable has central air conditioning, and another has a garage. The comparables have improvement assessments ranging from \$7.85 to \$11.43 per square foot of living area. The subject's improvement assessment is \$12.46 per

square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two or three-story frame or masonry mixed-use and multi-family buildings. The comparables all have the same classification and neighborhood codes as the subject. The buildings range in age from 107 to 115 years old, and they range in size from 3,500 to 3,684 square feet of living area. Each comparable has three or four apartment units, one commercial unit, and a partial, unfinished basement. One comparable has central air conditioning, and another has a garage. These properties have improvement assessments ranging from \$12.58 to \$15.03 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

All of the seven equity comparables submitted by both parties were two or three-story frame or masonry mixed-use/multi-family buildings with a partial, unfinished basement, and, with one exception, they were also very similar to the subject in age. However, the appellant's comparables numbered two through four differed significantly from the subject in size and received reduced weight in the Board's analysis. The Board finds the appellant's comparable numbered one and the comparables submitted by the board of review were most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$7.85 to \$15.03 per square foot of living area. The subject's improvement assessment of \$12.46 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
