

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Frank Scharl  
DOCKET NO.: 06-27772.001-R-1  
PARCEL NO.: 14-29-230-029-0000

The parties of record before the Property Tax Appeal Board are Frank Scharl, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:     \$ 30,307  
IMPR.:    \$ 79,000  
TOTAL:    \$ 109,307**

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a two-story multi-family dwelling of masonry construction containing 8,977 square feet of living area. The dwelling is 90 years old. Features include six apartment units and a partial, unfinished basement. The subject has a classification code of 2-12 under the Cook County Real Property Assessment Classified Ordinance, Mixed commercial/residential building, 6 units or less, square feet less than 20,000.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as three-story masonry dwellings that range in age from 78 to 118 years old. The appellant's comparables all have the same classification and neighborhood codes as the subject. The multi-family dwellings range in size from 6,013 to 10,140 square feet of living area. The comparables have three to six apartment units; two comparables have partial, unfinished basements; and one has a garage. The comparables have improvement assessments ranging from \$8.12 to \$8.80 per square foot of living area. The subject's improvement assessment is \$10.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story masonry dwellings that range in age from 91 to 108 years old. The comparables all have the same classification and neighborhood codes as the subject. The multi-family dwellings range in size from 2,750 to 5,000 square feet of living area. The comparables have four or six apartment units; each comparable has a partial, unfinished basement; one has central air conditioning; and another one has a garage. These properties have improvement assessments ranging from \$13.31 to \$20.95 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

All of the six comparables submitted by both parties were two or three-story masonry buildings that have the same classification and neighborhood codes as the subject and were generally similar to the subject in age. However, the comparables submitted by the board of review were much smaller in size, and, as a result, these comparables received reduced weight in the Board's analysis. The Board finds the appellant's comparables were most similar to the subject in size. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments of \$8.12 to \$8.80 per square foot of living area. The subject's improvement assessment of \$10.10 per square foot of living area falls above these amounts. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is not equitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
