

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Suffern
DOCKET NO.: 06-27910.001-R-1
PARCEL NO.: 14-17-418-003-0000

The parties of record before the Property Tax Appeal Board are Robert Suffern, the appellant, by attorney Michael Griffin in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 18,779
IMPR.: \$ 65,472
TOTAL: \$ 84,251

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of masonry construction containing 4,734 square feet of living area. The dwelling is 118 years old. Features of the dwelling include two apartment units, a full, finished basement, two fireplaces, and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two or three-story masonry multi-family dwellings that range in age from 90 to 108 years old. The comparable dwellings range in size from 3,220 to 5,322 square feet of living area. Each comparable has an unfinished basement, either full or partial, and three have a garage. The comparables have improvement assessments ranging from \$6.54 to \$12.48 per square foot of living area. The subject's improvement assessment is \$13.83 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of three-

story masonry multi-family dwellings that are either 94 or 103 years old. The dwellings range in size from 4,617 to 5,112 square feet of living area. Each comparable has an unfinished basement, either full or partial, and three have garages. These properties have improvement assessments ranging from \$13.70 to \$16.64 per square foot of living area. The board of review's evidence also indicated that comparable numbered one sold for \$805,000 in January 2006. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparable numbered three was much smaller than the subject and received reduced weight in the Board's analysis. The Board finds the remaining comparables were most similar to the subject in size. They were also very similar in exterior construction, age, foundation, and building use. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$6.54 to \$16.64 per square foot of living area. The subject's improvement assessment of \$13.83 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
