

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott Kumskis
DOCKET NO.: 06-27925.001-R-1
PARCEL NO.: 14-32-126-033-0000

The parties of record before the Property Tax Appeal Board are Scott Kumskis, the appellant, by attorney Howard W. Melton, of Howard W. Melton and Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$20,874
IMPR: \$166,625
TOTAL: \$187,499**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 2-story dwelling of masonry construction containing 2,878 square feet of living area. The dwelling is 126 years old. Features of the home include a full, unfinished basement, central air conditioning, a fireplace and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as 1½, 2, or 3-story masonry or frame and masonry dwellings that range in age from 17 to 134 years old. The comparable dwellings range in size from 2,440 to 3,500 square feet of living area. All comparables feature full basements, of which three are finished. All have central air conditioning and 1½ or 2-car garages. Two have fireplaces. The comparables have improvement assessments ranging from \$34.48 to \$38.00 per square foot of living area. The subject's improvement assessment is \$57.90¹ per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

¹ The board of review used the assessor's improvement assessment of \$166,960 instead of the board of review's assessment of \$166,625, resulting in an incorrect improvement assessment of \$58.01 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of 2 or 3-story masonry dwellings that range in age from 1 to 118 years old. The dwellings range in size from 2,826 to 4,063 square feet of living area. All comparables feature full basements, of which three are finished. All have central air conditioning, fireplaces, and 2 or 2½-car garages. These properties have improvement assessments ranging from \$62.17 to \$78.09 per square foot of living area. The board further disclosed that the subject had been purchased in May 2005 for \$1,875,000; comparable #1 was purchased in June 2004 for \$2,200,000; comparable #2 was purchased in March 2005 for \$810,000; comparable #3 was purchased in February 2005 for \$1,075,000; and comparable #4 was purchased in June 2004 for \$840,000. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Five of the comparables submitted by both parties were less than 20 years old, and therefore received less weight in the Board's analysis. The Board finds comparable #1 submitted by the appellant and comparable #1 submitted by the board of review were most similar to the subject in style, exterior construction, features and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$34.48 to \$78.09 per square foot of living area. The subject's improvement assessment of \$57.90 per square foot of living area is within the range established by the most similar comparables. Furthermore, the subject's assessment of \$187,499 reflects a market value of \$1,852,757 when applying the 2006 three year median level of assessments for Cook County Real Property Classification Ordinance class 2 property of 10.12% as determined by the Illinois Department of Revenue, which is less than the value reflected by the recent sales price of \$1,875,000. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
