

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Uriel Lancry
DOCKET NO.: 06-28230.001-R-1
PARCEL NO.: 14-32-214-018-0000

The parties of record before the Property Tax Appeal Board are Uriel Lancry, the appellant, by attorney Abby L. Strauss of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 20,708
IMPR.: \$ 239,280
TOTAL: \$ 259,988

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story dwelling of masonry construction containing 4,063 square feet of living area. The dwelling is two years old. Features of the home include a full, finished basement, central air conditioning, two fireplaces, and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as three-story masonry dwellings that are either three or four years old. The appellant's comparables all have the same neighborhood code as the subject, and one is located on the same street as the subject. The comparable dwellings range in size from 3,882 to 4,278 square feet of living area. Each comparable has a full basement, two of which are finished, central air conditioning, one or three fireplaces, and a two-car garage. The comparables have improvement assessments ranging from \$42.96 to \$50.89 per square foot of living area. The subject's improvement assessment is \$58.89 per square foot of living area. As part of its evidence, the appellant indicated that when the subject sold for \$840,000 in June 2004, it was to purchase the land for the new

improvement. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on one comparable property that is located approximately one-quarter mile from the subject. The comparable is a two-year old, three-story masonry dwelling with 4,300 square feet of living area, a full, finished basement, central air conditioning, a fireplace, and a two-car garage. It has an improvement assessment of \$62.21 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, the appellant's attorney noted that the appellant's comparables were closer to the subject in age and that one was located on the same street as the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds that the four comparables submitted by both parties were all very similar to the subject in age, size, style, exterior construction, and features. These comparables had improvement assessments that ranged from \$42.96 to \$62.21 per square foot of living area. The subject's improvement assessment of \$58.89 per square foot of living area falls within the range established by these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
