

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: LuAnn Mannino
DOCKET NO.: 06-28361.001-R-1
PARCEL NO.: 17-18-304-014-0000

The parties of record before the Property Tax Appeal Board are LuAnn Mannino, the appellant, by attorney James P. Regan, of Fisk Kart Katz and Regan, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,836
IMPR.: \$ 44,128
TOTAL: \$ 53,964

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,616 square foot parcel improved with a 117-year-old, two-story, mixed-use building of masonry construction containing 3,116 square feet of building area and located in West Chicago Township, Cook County. Features of the building include four and one-half bathrooms and a partial-unfinished basement.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of three-story, mixed-use buildings of masonry construction located within the same Sidwell block as the subject. The comparables contain four and one-half or five full bathrooms and a partial-unfinished basement. The improvements range in size from 5,040 to 6,440 square feet of building area and range in age from 105 to 125 years old. The

improvement assessments range from \$10.49 to \$12.33 per square foot of building area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$53,964. The subject's improvement assessment is \$44,128 or \$14.16 per square foot of building area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, mixed-use buildings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,840 to 3,200 square feet of building area and range in age from 116 to 125 years old. The comparables contain three and one-half, four or four and one-half bathrooms and a partial-unfinished basement. Two comparable have a two-car garage. The improvement assessments range from \$15.07 to \$15.60 per square foot of building area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, design, amenities, age and location and have improvement assessments ranging from \$15.07 to \$15.60 per square foot of building area. The subject's per square foot improvement assessment of \$14.16 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size and/or design and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
