

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Janice J. Wolff  
DOCKET NO.: 06-28475.001-R-1  
PARCEL NO.: 14-31-126-030-0000

The parties of record before the Property Tax Appeal Board are Janice J. Wolff, the appellant, and the Cook County Board of Review.

The subject property consists of a 112-year-old, one-story multi-family dwelling of masonry construction containing 1,054 square feet of living area with two full bathrooms, a full-finished basement apartment and a two-car detached garage. The subject is located in West Chicago Township, Cook County.

The appellant submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one and one-half story or two-story, multi-family dwellings of masonry construction located within three blocks of the subject. The improvements range in size from 1,408 to 4,364 square feet of living area and range in age from 77 to 118 years. The comparables contain two or two and one-half bathrooms. Three comparables contain a full-unfinished basement or a full-finished basement apartment. The improvement assessments range from \$4.77 to \$20.00 per square foot of living area. The appellant's evidence disclosed that the improvement for her comparable one is prorated with one or more parcels. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$54,455.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,384  
IMPR.: \$ 38,616  
TOTAL: \$ 51,000

Subject only to the State multiplier as applicable.

The subject's improvement assessment is \$42,071 or \$39.92 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, multi-family dwellings of masonry construction located within one-quarter mile of the subject. The improvements range in size from 1,134 to 1,290 square feet of living area and range in age from 109 to 128 years. The comparables contain two full bathrooms and a full-finished basement apartment. Two comparables have a two-car detached garage. The improvement assessments range from \$33.12 to \$36.66 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds a reduction is warranted.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$33.12 to \$36.66 per square foot of living area. The subject's per square foot improvement assessment of \$39.92 falls above the range established by these properties. The Board finds the appellant's comparables differ from the subject in size, especially comparable one which is over 3,300 square feet larger than the subject and prorated with one or more parcels. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the evidence has demonstrated that the subject dwelling was inequitably assessed and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
