

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Hikmat Hanna
DOCKET NO.: 06-28484.001-R-1
PARCEL NO.: 04-26-200-115-0000

The parties of record before the Property Tax Appeal Board are Hikmat Hanna, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 16-year old, two-story style dwelling of masonry construction containing 4,417 square feet of living area with a full, unfinished basement, central air conditioning, two fireplaces, and a two-car attached garage. The appellant claims the subject has frame exterior construction, but the appellant presented no evidence to support this claim.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story frame dwellings that are either 35 or 39 years old. The comparable dwellings range in size from 3,963 to 4,976 square feet of living area and have improvement assessments ranging from \$19.03 to \$20.00 per square foot of living area. The subject's improvement assessment is \$22.32 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from one to fourteen years old. The dwellings range in size from 3,801 to 4,279 square feet of living area and have improvement assessments ranging from \$12.74 to \$25.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	17,429
IMPR.:	\$	98,587
TOTAL:	\$	116,016

Subject only to the State multiplier as applicable.

parties and the subject matter of this appeal. The Board further finds that a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The appellant claims that the subject has frame exterior construction but submitted no evidence to support this claim. The board of review produced the subject's property characteristic sheet which confirms that the subject has masonry exterior construction. The Board finds that the board of review produced the best evidence with respect to establishing the subject's exterior construction. Consequently, the Board finds that the appellant's comparables differed from the subject in exterior construction, and they were also much older than the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The comparables numbered two through four by the board of review were newer than the subject and also received reduced weight. The Board further finds that the comparable numbered one by the board of review was the most similar to the subject in age, and it was also very similar in size, design, and exterior construction. Due to its similarities to the subject, this comparable received the most weight in the Board's analysis. This comparable had an improvement assessment of \$22.76 per square foot of living area. The subject's improvement assessment of \$22.32 per square foot of living area is less than this amount. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
