

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Michael Akey
DOCKET NO.: 06-28504.001-R-1
PARCEL NO.: 05-17-118-027-0000

The parties of record before the Property Tax Appeal Board are Michael Akey, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a one-year old, two-story style dwelling of masonry construction containing 7,838 square feet of living area with a full, unfinished basement, central air conditioning, two fireplaces, and a three-car attached garage. The appellant indicated on the petition that the subject is a 96-year old, one-story frame dwelling with 1,458 square feet of living area.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one or one and one-half story frame dwellings that range in age from 82 to 94 years old. The comparable dwellings range in size from 1,428 to 1,777 square feet of living area and have improvement assessments ranging from \$18.17 to \$20.25 per square foot of living area. According to the appellant, the subject's improvement assessment is \$33,657 or \$23.08 per square foot of living area. The appellant arrived at that figure by incorrectly using the subject property's 2005 assessment. The appellant produced no evidence to support his assertion that the subject is a 96-year old, one-story frame dwelling with 1,458 feet of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on two comparable properties consisting of two-story frame dwellings that are each one year old. The dwellings contain 5,358 and 6,800 square feet of living area and have improvement assessments of \$38.13 and \$40.16 per square foot of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	40,392
IMPR.:	\$	264,021
TOTAL:	\$	304,413

Subject only to the State multiplier as applicable.

living area. According to the board of review, the subject property has an improvement assessment of \$264,021 or \$33.68 per square foot of living area, which is based on the board of review's claim that the subject property is a one-year old, two-story dwelling with 7,838 square feet of living area. In support of its description of the subject's physical characteristics, the board of review produced the subject's property characteristic sheet. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds that a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The appellant claims that the subject is a 96-year old, one-story frame dwelling with 1,458 square feet of living area but submitted no evidence to support this claim. The board of review produced the subject's property characteristic sheet which confirms that the subject is now a one-year old, two-story masonry dwelling with 7,838 square feet of living area. The Board finds that the board of review produced the best evidence with respect to establishing the subject's physical characteristics.

Both parties presented assessment data on a total of six equity comparables. The Board finds that all of the comparables submitted by both parties differed substantially from the subject in size and exterior construction. In addition, the appellant's comparables were also much older than the subject, and two differed in design. Although none of the comparables was sufficiently similar to the subject, the Board notes that all of the comparables submitted had improvement assessments that ranged from \$18.17 to \$40.16 per square foot of living area. The subject's improvement assessment of \$33.68 per square foot of living area falls within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
