

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

-APPELLANT: David Sullivan
DOCKET NO.: 06-28976.001-R-1
PARCEL NO.: 14-31-209-014-0000

The parties of record before the Property Tax Appeal Board are David Sullivan, the appellant, by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,640
IMPR.: \$ 98,360
TOTAL: \$ 107,000

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 2,840 square feet of living area. The dwelling is three years old. Features of the home include a full, finished basement, central air conditioning, two fireplaces and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument, the appellant submitted information on four comparable properties. They are described as two-story frame, masonry or frame and masonry dwellings that are either two or seven years old and range in size from 2,520 to 2,742 square feet of living area. The comparables have full basements, three of which are finished, and central air conditioning; three have one or three fireplaces and three have a two-car garage. The comparables have improvement assessments ranging from \$23.05 to \$23.57 per square foot of living area. The subject's improvement assessment is \$34.63 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties. They consist of two-story masonry dwellings that range in age from three to seven years old. The dwellings range in size from 2,078 to 2,662 square feet of living area. They have full basements, one of which is finished, central air conditioning, one or two fireplaces and a garage. These properties have improvement assessments ranging from \$36.08 to \$45.03 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the eight comparables submitted by the parties were similar to the subject in design, age and foundation. The board of review's comparable two was considerably smaller than the subject and received reduced weight in the Board's analysis. The appellant's comparable two and the board of review's comparables one, three and four were most similar to the subject in size and exterior construction. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. The comparables had improvement assessments ranging from \$23.51 to \$38.07 per square foot of living area. The subject's improvement assessment of \$34.63 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
