

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: H. Michael Kurzman
DOCKET NO.: 06-29035.001-R-2
PARCEL NO.: 14-33-308-057-0000

The parties of record before the Property Tax Appeal Board are H. Michael Kurzman, the appellant(s), by attorney Stephen Golan, of Golan & Christie LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$23,424
IMPR.: \$168,236
TOTAL: \$191,660

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,904 square foot parcel of land improved with a 24-year old, two-story, masonry, single-family dwelling containing 2,928 square feet of living area, two and two-half baths, air conditioning, two fireplaces, and a partial, finished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant, via counsel, submitted descriptions and assessment information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two or three-story, masonry, single-family dwellings with between three and three-half and six and two-half baths, air conditioning, and, for three properties, one to six fireplaces. No basement information was provided. The properties range: in age from one to 36 years; in size from 4,250 to 4,710 square feet of living area; and in improvement assessments from \$5.10 to \$24.82 per

square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$168,236 or \$57.46 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on a total of four properties suggested as comparable and located within a quarter mile of the subject. The properties are described as two or three-story, masonry, single-family dwellings with between two and one-half and six and two-half baths, air conditioning, a partial or full basement with one finished, and, for three properties, one to two fireplaces. The properties range: in age from 10 to 15 years; in size from 2,760 to 3,618 square feet of living area; and in improvement assessment from \$52.31 to \$66.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has not met this burden.

The parties submitted a total of eight properties suggested as comparable to the subject. The PTAB finds the board of review's comparables most similar to the subject in size, age, construction, location, and amenities. Due to their similarities to the subject, these comparables received the most weight in the PTAB's analysis. The properties are masonry, two or three-story, single-family dwellings located within a quarter mile of the subject. The properties range: in age from 10 to 15 years; in size from 2,760 to 3,618 square feet of living area; and in improvement assessment from \$52.31 to \$66.49 per square foot of living area. In comparison, the subject's improvement assessment of \$57.46 per square foot of living area is within the range of these comparables. The remaining comparable was given less weight due to disparities in size. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
