

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sonia Ospina
DOCKET NO.: 06-29053.001-R-1
PARCEL NO.: 17-08-103-014-0000

The parties of record before the Property Tax Appeal Board are Sonia Ospina, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,024
IMPR.: \$ 51,255
TOTAL: \$ 60,279

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story mixed-use and multi-family building of masonry construction containing 5,076 square feet of living area. The building is 115 years old. Features include five apartment units, one commercial unit, and a partial, unfinished basement. The subject has a classification code of 2-12 under the Cook County Real Property Assessment Classified Ordinance, Mixed commercial/residential building, 6 units or less, square feet less than 20,000.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as masonry mixed-use and multi-family buildings. The appellant did not disclose the number of stories for each comparable; however, based on photographic evidence provided by the appellant, at least three buildings are three-story. The appellant's comparables all have the same classification and neighborhood codes as the subject, and they are located one to three blocks from the subject. The comparable buildings range in age from 105 to 125 years old, and they range in size from 4,800 to 7,968 square feet of living area. Each comparable has an unfinished basement, either full or partial, and one has a garage. The comparables have improvement assessments ranging from \$8.42 to \$9.20 per square foot of living

area. The subject's improvement assessment is \$10.10 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of three-story masonry mixed-use and multi-family buildings. The comparables all have the same classification and neighborhood codes as the subject. The buildings range in age from 108 to 125 years old, and they range in size from 4,416 to 5,187 square feet of living area. Each comparable has from three to five apartment units, one commercial unit, and a partial, unfinished basement. One comparable has central air conditioning, and two have a garage. These properties have improvement assessments ranging from \$10.15 to \$11.36 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables numbered one through three were much larger than the subject and received reduced weight in the Board's analysis. The appellant's comparable numbered four and the comparables submitted by the board of review were most similar to the subject in size. They were also very similar in building use, style, exterior construction, foundation, and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$9.20 to \$11.36 per square foot of living area. The subject's improvement assessment of \$10.10 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
