

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Ernst
DOCKET NO.: 06-29114.001-R-1
PARCEL NO.: 14-31-302-002-0000

The parties of record before the Property Tax Appeal Board are Richard Ernst, the appellant, by attorney Timothy C. Jacobs, of Gary H. Smith PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 12,384
IMPR.: \$ 49,116
TOTAL: \$ 61,500**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a three-story multi-family dwelling of masonry construction containing 2,691 square feet of living area. The dwelling is 117 years old. Features of the home include a full, finished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument, the appellant submitted information on eight comparable properties. They had the same classification code and neighborhood code as the subject. They are described as masonry dwellings that range in age from 111 to 150 years old and contain from 2,728 to 2,934 square feet of living area. The comparables have full basements, six of which are finished, and four have a garage. The comparables have improvement assessments ranging from \$12.39 to \$17.89 per square foot of living area. The subject's improvement assessment is \$18.61 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties with the same

neighborhood code as the subject. They consist of three-story masonry dwellings that range in age from 98 to 111 years old. The dwellings range in size from 2,457 to 2,679 square feet of living area. They have full, unfinished basements and a two-car garage. These properties have improvement assessments ranging from \$20.00 to \$22.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the 12 comparables submitted by the parties had the same classification and neighborhood codes as the subject. They were also generally similar to the subject in age and size. The comparables had improvement assessments ranging from \$12.39 to \$22.85 per square foot of living area. The subject's improvement assessment of \$18.61 per square foot of living area is within the range established by the comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
