

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 2054 North Clifton, L.L.C.  
DOCKET NO.: 06-29355.001-R-1  
PARCEL NO.: 14-32-221-015-0000

The parties of record before the Property Tax Appeal Board are 2054 North Clifton, L.L.C., the appellant, by attorney David C. Dunkin, of Arnstein & Lehr in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$27,900  
**IMPR:** \$80,154  
**TOTAL:** \$108,054

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a Class 2-11, 124 year-old, two-story style masonry dwelling that contains 3,505 square feet of living area. Features of the home include two fireplaces, a three-car garage and a full basement finished as an apartment. The subject is located in Chicago, North Chicago Township, Cook County.

The appellant submitted evidence to the Property Tax Appeal Board claiming unequal treatment in the assessment process regarding the subject's improvement assessment as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis of four comparable properties. The comparables consist of Class 2-11, two-story style masonry or frame and masonry dwellings that range in age from 114 to 128 years and range in size from 3,432 to 3,750 square feet of living area. Two comparables have two-car garages and one has a full unfinished basement. Three comparables have no basements. These properties have improvement assessments ranging from \$72,668 to \$77,425 or from \$20.25 to \$21.60 per square foot of living area. The

subject has an improvement assessment of \$80,154 or \$22.87 per square foot of living area. Based on this evidence the appellant requested the subject's improvement assessment be reduced to \$70,976 or \$20.25 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$108,054 was disclosed. In support of the subject's assessment, the board of review submitted property record cards and a grid analysis of four comparable properties located within 1/4 mile of the subject. The comparables consist of two-story style masonry dwellings that range in age from 118 to 123 years and range in size from 3,080 to 3,916 square feet of living area. All the comparables have full basements, one of which is finished as an apartment, three comparables have two-car or three-car garages, one has central air conditioning and two have one or two fireplaces. These properties have improvement assessments ranging from \$74,533 to \$90,424 or from \$23.09 to \$26.48 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted.

The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the parties submitted eight comparables in support of their respective arguments. The Board gave less weight to the appellant's comparables #1, #3 and #4 because they had no basements, dissimilar to the subject's full basement finished as an apartment. The Board finds the remaining comparables were similar to the subject in design, age, size and most features and had improvement assessments ranging from \$72,668 to \$90,424 or from \$20.25 to \$26.48 per square foot of living area. The subject's improvement assessment of \$80,154 or \$22.87 per square foot of living area falls within this range. Therefore, the Board finds the evidence in the record supports the subject's assessment.

In conclusion, the Board finds the appellant has failed to prove assessment inequity by clear and convincing evidence and the subject's assessment as determined by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
