

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Arthur Eastern  
DOCKET NO.: 06-29561.001-R-1  
PARCEL NO.: 29-15-101-015-0000

The parties of record before the Property Tax Appeal Board are Arthur Eastern, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 5,331  
**IMPR.:** \$ 11,907  
**TOTAL:** \$ 17,238

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a multi-level dwelling of frame construction containing 1250 square feet of living area. The dwelling is 31 years old. Features of the home include a partial, finished basement, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as multi-level frame or masonry dwellings that range in age from 31 to 46 years old. The comparable dwellings range in size from 1326 to 1506 square feet of living area. All have partial basements but lack fireplaces, and two have central air conditioning. The map provided by the appellant indicates the comparables are located approximately one and one-half miles from the subject. The comparables have improvement assessments ranging from \$7.35 to \$7.52 per square foot of living area. The subject's improvement assessment is \$9.53 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed.

The board of review presented descriptions and assessment information on four comparable properties consisting of multi-level frame dwellings that range in age from 31 to 33 years old. The dwellings range in size from 1250 to 1375 square feet of living area. Features include partial, finished basements, central air conditioning, fireplaces and two-car garages. These properties have improvement assessments ranging from \$9.66 to \$9.92 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in location because the appellant's comparables were located approximately one and one-half miles from the subject. The information supplied by the board of review along with the map supplied by the appellant indicate that the board of review's comparables were located much closer to the subject. Also the board of review's comparables were similar to the subject in most property characteristics. These comparables had improvement assessments that ranged from \$9.66 to \$9.92 per square foot of living area. The subject's improvement assessment of \$9.53 per square foot of living area is lower than the range established by the most similar comparables and is lower than the \$9.92 per square foot assessment of the comparable located on the same block as the subject. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
