

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth Donaldson  
DOCKET NO.: 06-29562.001-R-1  
PARCEL NO.: 29-03-103-022-0000

The parties of record before the Property Tax Appeal Board are Kenneth Donaldson, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 2,720  
**IMPR:** \$ 7,005  
**TOTAL:** \$ 9,725

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of frame construction containing 748 square feet of living area. The dwelling is 94 years old. Features of the home include a full, unfinished basement and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story frame dwellings that range in age from 78 to 112 years old. The comparable dwellings range in size from 840 to 900 square feet of living area. Three include full basements, and one is finished. The map filed with the appellant's evidence indicates comparables #1 and #4 were located approximately one and one-half miles or more from the subject. The other comparables were located several blocks from the subject in a different city. The comparables have improvement assessments ranging from \$3.17 to \$4.53 per square foot of living area. The subject's improvement assessment is \$9.36 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on one comparable property consisting of a one-story frame dwelling that is 94 years old and has 698 square feet of living area. Features include a full, unfinished basement and a one-car garage. It has an improvement assessment of \$9.28 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables #1 and #4 were located far from the subject and gives reduced weight to those comparables in its analysis. The other comparables were generally similar to the subject. These comparables had improvement assessments that ranged from \$3.57 to \$9.28 per square foot of living area. The subject's improvement assessment of \$9.36 per square foot of living area is slightly higher than that range. However, the appellant's comparables were several blocks away in another city. The board of review's comparable, which was located on the same block as the subject, was very similar to the subject and its slightly lower assessment per square foot could be attributable to having only a one-car garage. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
