

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas C. Eley
DOCKET NO.: 06-29684.001-R-1
PARCEL NO.: 17-06-304-027-0000

The parties of record before the Property Tax Appeal Board are Thomas C. Eley, the appellant, by attorney Jason T. Shilson, of O'Keefe Lyons & Hynes, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,680
IMPR.: \$ 70,201
TOTAL: \$ 83,881

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,600 square foot parcel improved with a 93-year-old, three-story, multi-family dwelling of masonry construction containing 5,706 square feet of living area and located in West Township, Cook County. Features of the building include three six bathrooms and a full-unfinished basement.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on seven properties suggested as comparable to the subject. Based on the appellant's documents, the seven suggested comparables consist of three-story, multi-family dwellings of masonry or frame and masonry construction located within 0.37 miles of the subject. Four of the comparables are located on the same street as the subject. The improvements range in size from 5,060 to 5,892 square feet of living area and

range in age from 86 to 105 years old. The comparables contain six full bathrooms with one comparable having an additional six half-baths. Six comparables contain a full-unfinished basement. The improvement assessments range from \$11.19 to \$13.08 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$83,881. The subject's improvement assessment is \$70,201 or \$12.30 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, multi-family dwellings of masonry construction located within one-quarter mile of the subject. Three of the comparables are located on the same street and block as the subject. The improvements range in size from 5,589 to 5,751 square feet of living area and range in age from 91 to 94 years old. The comparables contain six full bathrooms and a full-unfinished basement. The improvement assessments range from \$12.15 to \$12.38 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables five and seven and the board of review's comparables to be the most similar properties to the subject in the record. These six properties are similar to the subject in improvement size, amenities, age, design and construction. In addition, they are located on the same street and within 0.37 miles of the subject with improvement assessments ranging from \$11.19 to \$12.38 per square foot of living area. The subject's per square foot improvement assessment of \$12.30 falls within the range established by these properties. The Board finds the appellant's remaining comparables less similar to the subject in improvement size and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
