

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Hillyard  
DOCKET NO.: 06-29742.001-R-1  
PARCEL NO.: 30-32-122-034-0000

The parties of record before the Property Tax Appeal Board are Joseph Hillyard, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 3,154  
**IMPR.:** \$ 7,156  
**TOTAL:** \$ 10,310

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 48-year-old, one-story style single-family dwelling of frame construction. Containing 888 square feet of living area, the subject features one full bath, a full unfinished basement, and a one-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story or one and one-half style single-family dwellings of frame construction from 55 to 65 years old. The comparable dwellings contain one full bath. The comparables range in size from 720 to 998 square feet of living area and have improvement assessments ranging from \$4.98 to \$5.75 per square foot of living area. A copy of the subject's 2006 board of review final decision was also included. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$7,156, or \$8.06 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of one-story style single-family dwellings of frame construction from 50 to 57 years old. The comparables contain one full bath, full basements and garages. These properties range in size from 936 to 960 square feet of living area and have improvement assessments ranging from \$8.76 to \$10.40 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that the board of review's comparables are the most similar to the subject in style and amenities. These properties have improvement assessments ranging from \$8.76 to \$10.40 per square foot of living area. The subject's per square foot improvement assessment of \$8.06 falls below the range established by these properties. The Board finds the remaining comparables less similar to the subject in style and or amenities. The Board accords these properties diminished weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
