

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chester Brosilo  
DOCKET NO.: 06-29864.001-R-1  
PARCEL NO.: 24-23-309-073-0000

The parties of record before the Property Tax Appeal Board are Chester Brosilo, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 2,346  
**IMPR.:** \$ 9,027  
**TOTAL:** \$ 11,373

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 41-year old, one-story style dwelling of masonry construction containing 1,040 square feet of living area with a full, finished basement and a one and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as one, one and one-half or two story frame dwellings that are from 61 to 66 years old for consideration. The comparables contain from 1,176 to 1,284 square feet of living area. Two of the comparables are central air conditioned. The improvement assessments range from \$5.88 to \$5.96 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The subject's improvement assessment is \$8.68 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 35 to 37 years old. The dwellings feature full basements, one air conditioned and three have garages. The dwellings range in size from 1,082 to 1,104 square feet of living area and have improvement assessments ranging from \$11.01 to \$12.39 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Property Tax Appeal Board finds the comparables submitted by board of review were most similar to the subject in size, design, exterior construction, location and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. The board of review's comparables had improvement assessments that ranged from \$11.01 to \$12.39 per square foot of living area. The subject's improvement assessment of \$8.68 per square foot of living area is below the range established by these properties. The Board finds the appellant's comparables are less similar to the subject in design, construction type and age and accords these properties less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.
