

**Final Administrative Decision of the
State of Illinois
PROPERTY TAX APPEAL BOARD**

APPELLANT: Joseph Herman
DOCKET NO.: 06-29907.001-R-1
PARCEL NO.: 24-17-408-022-0000

The parties of record before the Property Tax Appeal Board are Joseph Herman, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C.; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,216
IMPR.: \$ 14,548
TOTAL: \$ 17,764

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 5,360 square foot parcel improved with a 12-year-old, one-story style single-family dwelling of masonry construction. Containing 1,503 square feet of living area, the subject features one and one-half baths, a full basement, and a two-car garage. The subject is located in Worth Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story style single-family dwellings of frame construction from 52 to 97 years old. The comparable dwellings contain one or two full baths; one also has a partial basement. The comparables range in size from 1,171 to 1,632 square feet of living area and have improvement assessments ranging from \$5.74 to \$7.11 per square foot of living area. A copy of the subject's 2006 board of review final decision was also included. Based on this

evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$14,548, or \$9.68 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of one-story style single-family dwellings of masonry construction from 42 to 51 years old. The comparables contain one to two full baths and have garages; two have additional half-baths; three have full basements; two have air conditioning; and two have fireplaces. These properties range in size from 1,241 to 1,592 square feet of living area and have improvement assessments ranging from \$9.71 to \$10.80 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board places no weight on the appellant's comparables. The Board finds that these improvements differ substantially in age and construction type when compared to the subject. The Board finds that the comparables are from 40 to 85 years old and of frame construction while the subject is a 12 year old improvement of masonry construct. Additionally, the Board finds that the appellant's comparables have either no basement or a partial basement while the subject has a full basement. As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
