

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Glen Solvig
DOCKET NO.: 06-30092.001-R-1
PARCEL NO.: 13-05-321-003-0000

The parties of record before the Property Tax Appeal Board are Glen Solvig, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,886
IMPR.: \$27,838
TOTAL: \$35,724

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 3,720 square foot parcel of land improved with an 86-year old, one and one-half story, frame, single-family dwelling containing 1,538 square feet of living area, one bath, air conditioning, and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of four properties suggested as comparable and located within eight blocks of the subject. The properties are described as one or one and one-half story, frame or masonry, single-family dwellings with one or one and one-half baths, a fireplace for one property, and, for three properties, a full, unfinished basement. The properties range: in age from 48 to 81 years; in size from 1,008 to 1,837 square feet of living area; and in improvement assessments from \$12.46 to \$17.44 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$27,838 or \$18.10 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on a total of four properties suggested as comparable and located within a quarter mile of the subject. The properties are described as one and one-half story, frame, single-family dwellings with one to two baths, a full basement with one finished, and, for one property, air conditioning. The properties range: in age from 80 to 82 years; in size from 1,419 to 1,489 square feet of living area; and in improvement assessment from \$20.29 to \$21.34 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney reiterated the position that the subject is inequitably assessed and argued that appellant's suggested comparable #2 was the most similar to the subject.

After reviewing the record and considering the testimony, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of eight properties suggested as comparable to the subject. The PTAB finds the board of review's comparables most similar to the subject in size, design, construction and age. Due to their similarities to the subject, these comparables received the most weight in the PTAB's analysis. The properties are frame, one and one-half story, single-family dwellings located within a quarter mile of the subject. The properties range: in age from 80 to 82 years; in size from 1,419 to 1,489 square feet of living area; and in improvement assessments from \$20.29 to \$21.34 per square foot of living area. In comparison, the subject's improvement assessment of \$18.10 per square foot of living area is below the range of these comparables. The remaining comparables were given less weight due to disparities in design, construction, and/or size. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
