

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Visual 3012
DOCKET NO.: 06-30138.001-R-1
PARCEL NO.: 13-13-327-028-0000

The parties of record before the Property Tax Appeal Board are Visual 3012, the appellant(s), by attorney Aron L. Bornstein, of Law Offices of Aron L. Bornstein in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,253
IMPR.: \$44,500
TOTAL: \$51,753

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,925 square foot parcel of land improved with a seven-year old, two-story, masonry, mixed-use building containing 4,450 square feet of building area, three and one-half baths, and a partial, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information on a total of four properties suggested as comparable and located within five miles of the subject with one property located on the subject's block. The properties are described as two or three-story, masonry or frame and masonry, mixed-use buildings with between two and six and four-half baths. Basement information was not provided. The properties range: in age from 72 to 96 years; in size from 6,085 to 8,522 square feet of building area; and in improvement assessments from \$7.42 to \$8.90 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$51,785 or \$11.64 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on four properties suggested as comparable and located within six blocks of the subject. The properties are described as two-story, masonry, multi-family dwellings with three or four baths and a full basement with two finished. The properties range: in age from 42 to 95 years; in size from 2,750 to 3,571 square feet of building area; and in improvement assessments from \$11.97 to \$15.01 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney asserted that the best comparable is the appellant's comparable #1 which is located next door to the subject. The appellant also argued that the board of review's suggested comparables are all apartment buildings and not mixed-use commercial/residential buildings as is the subject.

The board of review's representative, Nicholas Jordan, rested on the evidence previously submitted.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of eight properties suggested as comparable to the subject. The PTAB finds the appellant's comparables most similar to the subject in design. The properties are described as two or three-story, frame and masonry or masonry, mixed-use buildings. The properties range: in age from 72 to 96 years; in size from 6,085 to 8,522 square feet of living area; and in improvement assessments from \$7.42 to \$8.90 per square foot of living area. In comparison, the subject's improvement assessment of \$11.64 per square foot of living area is above the range of these comparables. However, the PTAB finds the subject property is significantly newer in age than the comparables at seven years while the closest comparable in age is 79 years. In addition, the PTAB finds the subject is significantly smaller than the comparables. Appraisal theory suggests, all other things being equal, a smaller property would have a higher price per square foot. Therefore, after considering adjustments and the differences in both parties'

comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a slight reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
