

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Oprondek
DOCKET NO.: 06-30158.001-R-1
PARCEL NO.: 24-21-430-016-0000

The parties of record before the Property Tax Appeal Board are Michael Oprondek, the appellant(s), by attorney Rusty A. Payton, of Law Offices of Rusty A. Payton, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,743
IMPR.: \$ 12,448
TOTAL: \$ 17,191

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 1,282 square feet of living area. The dwelling is 31 years old. Features of the home include one and one-half bathroom, a full-unfinished basement, central air-conditioning, a fireplace and a two-car detached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story, masonry dwellings that range in age from 29 to 54 years old. The comparable dwellings range in size from 1,328 to 1,565 square feet of living area. Features include one full bathroom. Two comparables have unfinished basements, three comparables contain central air-conditioning and one comparable has a fireplace. The comparables have improvement assessments ranging from \$6.37 to \$7.30 per square foot of living area. The subject's improvement assessment

is \$9.71 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story, masonry dwellings that range in age from 28 to 48 years old. The dwellings range in size from 1,293 to 1,337 square feet of living area. Features include one or one and one-half bathrooms and a multi-car garage. Three comparables have a full-unfinished basement, three comparables contain central air-conditioning and one comparable has a fireplace. These properties have improvement assessments ranging from \$6.37 to \$11.57 per square foot of living area. The appellant's comparables one and three and the board's comparables three and four are the same properties. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the appellant's comparables one and three and the board of review's comparables to be the most similar properties to the subject in size, amenities, location, exterior construction and age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables have improvement assessments ranging from \$6.37 to \$11.57 per square foot of living area. The subject's improvement assessment of \$9.71 per square foot of living area is within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
