

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Margaret Jura  
DOCKET NO.: 06-30264.001-R-1  
PARCEL NO.: 13-08-121-027-0000

The parties of record before the Property Tax Appeal Board are Margaret Jura, the appellant, by attorney Lisa A. Marino of Marino & Assoc., PC of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 6,612  
**IMPR.:** \$ 20,219  
**TOTAL:** \$ 26,831

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property is improved with a one-story dwelling of masonry construction containing 792 square feet of living area. The dwelling is 65 years old. Features of the home include a full, unfinished basement and a one-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story frame or masonry dwellings that range in age from 50 to 83 years old. One of the appellant's comparables is located in the same block as the subject, and the others are located between one and six blocks from the subject property. The comparable dwellings range in size from 855 to 986 square feet of living area. Each comparable has a full, unfinished basement; two have central air conditioning; and three have a garage. The comparables have improvement assessments ranging from \$23.75 to \$24.22 per square foot of living area. The subject's improvement assessment is \$25.53 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of one-story masonry dwellings that range in age from 56 to 64 years old. Based on their parcel index numbers, the comparables are located in the same general vicinity as the subject. The dwellings contain either 864 or 866 square feet of living area. Each comparable has a full, unfinished basement and a garage. These properties have improvement assessments ranging from \$28.91 to \$29.93 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

Both parties presented assessment data on a total of eight equity comparables. The comparable numbered four by the appellant was much older than the subject and also differed in exterior construction. The remaining seven comparables submitted by both parties were very similar to the subject in style, foundation, and exterior construction. The comparables numbered one through three by the appellant were most similar to the subject in location, and the comparables submitted by the board of review were more similar in age and size. These seven comparables had improvement assessments that ranged from \$23.75 to \$29.93 per square foot of living area. The subject's improvement assessment of \$25.53 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
